This plan helps to meet the employer's obligation for statutory Gratuity Benefit to their employees. The plan also offers Life Cover Benefit so that in case of death of a group member an amount equal to sum assured in respect of that member will be paid. The amount of life cover in respect of each member shall be guided by the scheme rules of the employer.

##### **3. Policy Account:**

A single Policy Account shall be maintained in respect of all Contributions received from policyholder.

For a new scheme, a Policy Account will be created in respect of a scheme as soon as the Policyholder pays the first Contribution. The Policyholder's Account shall be credited with interest amount by providing the following types of interest rates:

2. The yield earned on each of the policy account shall be calculated using the money weighted rate of return method at end of each policy year.

The interest amount earned by way of MFR and AIR will be credited to the Policy Account at the end of each financial quarter/at the time of exit. The interest amount earned by way of RA, if any, will be credited to the Policy Account at the end of each policy year starting from policy year 5.

5. **Charges:**

- a) **Mortality Charges:** Mortality Charge is the amount required to secure the Life Cover Benefits to the members from year to year as per scheme rules. Mortality Charges will be deducted from Policy Account Value on monthly basis in advance.

The total Mortality Charge to be deducted from Policy Account Value shall be the sum of Mortality Charges in respect of each member covered under the policy.

The Mortality Charge Table to be applied to a group will depend on the size, mortality experience and risk profile including occupation of the group.

- b) **Policy Administration Charges:** The Policy Administration Charge per year shall be Rs. 0.15 per Rs.1000/- of total Life Cover Benefit under the policy at the time of deduction of the charge. This charge will be a deducted from Policy Account on monthly basis in advance.

- c) **Fund Management Charge:** The Fund Management Charge (FMC) shall be deducted from Policy Account Value at the end of each quarter/ at the time of exit based on daily Policy Account Value during that quarter. This percentage of the Fund Management Charge shall vary depending on the size of Policy Account Value of the scheme and are as under:

Fund Management Charge: (per annum)	
Size of Policy Account Value of the Scheme	Fund Management Charge(FMC) (p.a.)
Initial amount upto 1 crore	0.50%
On subsequent amount above 1 crore but less than or equal to 5 crores	0.45%
On subsequent amount above 5 crores but less than or equal to 25 crores	0.40%
On subsequent amount above 25 crores but less than or equal to 100 crores	0.35%
On subsequent amount above 100 crores but less than or equal to 200 crores	0.30%
On subsequent amount above 200 crores but less than or equal to 400 crores	0.25%

On subsequent amount above 2000 crores	0.10%

For example, in case of Policy Account Value of Rs. 1.5 crores the charges that would apply would be Rs. 72,500, being 50,000 (0.5%) on the first one crore of the Policy Account Value and Rs 22,500 (0.45%) on the balance 50 lacks of the Policy Account Value.

- d) **Market Value Adjustment:** A Market Value Adjustment (MVA) will be applicable on Bulk Exits and complete surrender of the policy. The MVA will be applicable on withdrawal amount which is over and above 25% of the Policy Account Value. The MVA amount shall be derived at the time of exit using the following formula.

MVA amount = [Maximum (0, Policy Account Value – Market Value) / Policy Account Value] \* (Net amount which is over and above the amount representing Bulk Exit)

Where, Market Value is derived from the revaluation of assets at the time when MVA is carried out. The assets will be earmarked separately for this product. The MVA amount, if any, will be deducted from the Policy Account Value.

- e) **Surrender Charges:** If the policy is surrendered within three policy years from the date of commencement, surrender charge shall be 0.05% of the Policy Account Value subject to maximum of Rs.500,000/-.

No surrender charge will be levied if a policy is surrendered after completion of third policy anniversary.

- f) **Service Tax Charge:** Service tax, if any, shall be as per the Service Tax laws and the rate of service tax as applicable from time to time.

The modification in Fund Management Charges and Policy Administration Charges will be done prospectively with effect from next Annual Renewal Date with the prior approval from IRDA after giving the Policyholder a notice of one month. However, the maximum Fund Management Charges shall not exceed 1% p.a. The Policy Administration Charges shall not exceed Rs. 0.30 p.a per thousand of Life Cover Benefit, subject to a maximum of Rs. 500 per annum per member.

In case the Policyholder does not agree with the revision of charges the Policyholder shall have the option to withdraw the Policy Account Value. However such withdrawal shall not be treated as surrender.

6. **Bulk Exits:** If the amount to be paid on total exits in any event exceeds 25% of the total fund of the scheme at the beginning of the year, such transactions shall be treated as bulk exits, where exits shall mean exit of the member from the group. If the withdrawal amount exceeds 25% of the total Policy Account Value of the scheme at the beginning of that policy year then it will be considered as Bulk Exit. Market Value Adjustment (MVA) will be applicable on such Bulk Exits.

7. **Surrender Value:** The Policy can be surrendered by the Policyholder at any time by giving an advance notice of 3 months. The benefit available on surrender shall be Guaranteed Surrender Value. The Corporation may, however, pay Special Surrender Value if it is favorable to the policyholder.

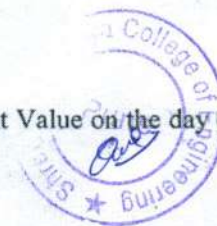

The Life Cover Benefit will not acquire any surrender value.

**Guaranteed Surrender Value:**

The Guaranteed Surrender Value shall be equal to the 90% of the total Contributions (net of Mortality Charges and Policy Administration Charges already deducted till date) paid less all the benefits paid since the inception of the policy.

**Special Surrender Value:**

The Special Surrender Value shall be equal to the Policy Account Value on the day of surrender less the applicable surrender charges less Market Value Adjustment, if any.

10. Cooling-off period:

The Policyholder may review the terms and conditions of the Master Policy and choose to return the Master Policy within 15 days to the Corporation in case of any objection with a written communication stating the reasons of their objection. The period of 15 days shall be reckoned from the date of receipt of Master Policy by the Policyholder.

On receipt of such a communication, the Master Policy shall be cancelled and the amounts received shall be refunded to Policyholder after deduction in respect of following.

- a) Stamp duty expenses.

11. Loan:

**Benefit Illustration:**

**Statutory warning**

*"Some benefits are guaranteed and some benefits are variable with returns based on the future performance of your life insurance company. If your policy offers guaranteed returns then these will be clearly marked "guaranteed" in the illustration table on this page. If your policy offers variable returns then the illustrations on this page will show two different rates of assumed investment returns. These assumed rates of return are not guaranteed and they are not upper or lower limits of what you might get back as the value of your policy is dependent on a number of factors including future investment performance."*

**Notes:**

- The above illustration is applicable to a non-smoker male/female standard (from medical, life style and occupation point of view) life.
- The bonuses/non-guaranteed benefits in above illustration are calculated so that they are consistent with the Projected Investment Rate of Return assumption of 4% p.a and 8% p.a. respectively. In other words, in preparing this benefit illustration, it is assumed that the Projected Investment Rate of Return that LIC will be able to earn **throughout the term of the policy** will be 4% p.a. or 8% p.a., as the case may be.
- The main objective of the illustration is that the client is able to appreciate the features of the product and the flow of benefits in different circumstances with some level of quantification.
